Aug. 28, 2022

Dear Student,

I am glad to inform you that you have been selected to participate in the Initiation into Mathematics (Initmath) programme organized under the aegis of MTTS TRUST in collaboration with G. N. Khalsa College, Mumbai. The programme will be held at the Department of Mathematics, Guru Nanak Khalsa College, Mumbai. The programme starts at 8:00 AM on Sept. 12, 2022 and ends at 5.00 PM on September 17, 2022.

To participate in the programme, you must confirm your participation by sending an email to the local coordinator Prof. Rakesh Barai (rakesh.barai@gnkhalsa.edu.in) latest by Sept. 05, 2022. In case of any difficulty, you may also call him on 9867 83 1625 . Please mention your name and serial number and your complete address in the confirmation email. Please write 'confirmation for InitMath-2022-Mumbai' as the subject in your email. In case you do not confirm your participation during this period, your selection will stand canceled automatically and no further communication will be entertained.

After receiving your confirmation of participation, the local coordinator will send you a letter (by email) giving you the information such as how to reach the the venue of the programme.

Please note that no accommodation will be provided to out-station participants. They need to make their own arrangement in case they decide to participate. Breakfast, lunch and tea will be provided during the programme.

I would like to bring it to your attention that you may have to take care of clashes if any with your lectures, university or any other exams with the schedule of the programme. You need to join the programme on the first day itself and attend the the full programme actively. You will **NOT** be granted any leave during the programme.

The Programme will be very intensive, requiring you to spend about seven hours of study of mathematics every day in the class room and a couple of hours of study at your home. Please be prepared to work hard and compete with other participants. While competition is good for one's improvement, you may also bear in mind that your primary aim should be to learn mathematics. The teachers will be accessible and ready to help you in your difficulties. The class room presentation will not be in the usual lecture style but will require an active participation from you. Do not bother about the topics to be covered and textbooks. The most important purpose of this programme is to train you to think rather than to introduce you to a lot of jargon.

MTTS TRUST
(Mᴀᴛʜᴇᴍᴀᴛɪᴄs Tʀᴀɪɴɪɴɢ ᴀɴᴅ Tᴀʟᴇɴᴛ Sᴇᴀʀᴄʜ Tʀᴜsᴛ)
