ABOUT MTTS PROGRAMME

The Mathematics Training and Talent Search (MTTS) programme is one of the most popular and significant training programmes in India.

This programme has been running since 1993 and has made an impressive impact on mathematical scenario in the country.

The faculty consists of active mathematicians with a commitment to teaching and are from various leading institutions. The aim of the programme is not to give routine lectures but to stimulate the participants to think and discover mathematical results on their own.

InitMath programmes are shorter version of the main MTTS Programme. These are organized at regional level so as to provide opportunities to a larger number of students who do not get a chance to participate in main camps of the MTTS.

DATES

- Online application portal:
 - opens on **16 August, 2022**,
 - closes on **5 September, 2022**.
