BACKGROUND

The Mathematics Training and Talent Search (MTTS) programme is one of the most popular and significant training programmes in India. This programme has been running since 1993 and has made an impressive impact on the mathematical scene in the country. We receive a large number of applications from all parts of the country, but due to limitation of resources and seats, lot of deserving students do not get a chance to participate in main camps of the MTTS. In order to provide opportunities to a large number of students at regional levels, an **InitMath** (also known as mini-MTTS) programme has been initiated and runs on the same line of the main MTTS.

ACADEMIC PROGRAMME

Three fundamental courses in Mathematics will be taught by highly experienced faculty in MTTS teaching methodology. The aim of the instruction is not to give routine lectures but to stimulate the participants to think and discover mathematical results on their own.

ELIGIBILITY & SELECTION

Second year undergraduate students with Mathematics as one of their main subjects. Students from Tripura and the neighboring states will be given preference.

The selection will be on merit, based on consistent and good academic records and recommendation by a mathematics teacher.

ABOUT THE HOST INSTITUTION

The ICFAI University, established in 2004, is one of the leading Private Universities in the North eastern States of India offering Multidisciplinary courses and contributing for providing high quality education with State-of-the-art Campus with necessary hardware and software infrastructure, Facilitating research and publication, Employment generation, Socio-economic development, Improvement in school education through teacher training programs, development of service sector through manpower training, Industry interface, etc.

The Department of Mathematics, ICFAI University Tripura, currently offers B.Sc., M.Sc. and Ph.D. degrees.

AIM OF THE PROGRAMME

The aim of the programme is to expose bright young students to the excitement of doing mathematics, to promote independent mathematical thinking and to prepare them for higher aspects of mathematics.
