BACKGROUND

MTTS: The Mathematics Training and Talent Search (MTTS) programme is one of the most popular and significant training programmes in India. This programme has been running every summer since 1993, in various venues around the country, including moving online for 2020 and 2021, the two years impacted by Covid. These annual summer camps have made an impressive impact on the mathematical scene in the country.

InitMath: A large number of applications are received from all parts of the country for the annual summer camps, but due to limited resources and seats, many deserving students do not have the opportunity to participate in them. In order to overcome this and to provide opportunities to a large number of students at regional levels, an InitMath (formerly known as miniMTTS) program has been conducted since 2010. This camp of a duration of one week runs along the same lines as the annual summer camp.

ACADEMIC PROGRAM & AIM

Three fundamental courses in mathematics will be taught by faculty who are highly experienced in the teaching methodology of MTTs.

The intent of the instructions is not to give routine lectures, but to stimulate the participants to think and discover mathematical ideas and results on their own.

The aim of the programme is

- to expose bright young students to the excitement of doing mathematics,
- to promote independent mathematical thinking and
- to help the participants gain a high level of confidence for self-study to undertake advanced courses in mathematics.

ABOUT THE INSTITUTE

DHSK College, Dibrugarh was established on 15th June, 1945, with affiliation to the Calcutta University, to cater to the needs of higher education in upper Assam. Later in 1948 it was affiliated to the Gauhati University. The college was instrumental for conceptualization and subsequent establishment of Dibrugarh University in 1965, and the College, at present takes pride in its affiliation to this University. A concrete mission of this institution is to transform the younger citizens of this remote part of our country into responsible individuals.

The vision of the College is Cultivation of Knowledge, Skill and Attitude in every individual through a Curriculum relevant to the moral, cultural, socio-economic and ethnic diversity. The College encourages a sense of belonging and ownership among all the stakeholders and a gender friendly ambiance in the campus.

The Department of Mathematics, DHSK COLLEGE, Dibrugarh was established in 1950. Since its inception, the department is imparting quality education and a significant number of Alumni have excelled in diverse fields contributing immensely towards the well-being of the society. Currently, the department runs a post-graduate program in Mathematics, apart from its undergraduate programs. The department also houses a small library with good number of books and internet facility for the students.

ABOUT MTTs TRUST

MTTS-TRUST is a non-profit educational trust. The primary objective of the trust is to organise all activities under the MTTs umbrella and any other training camps as deemed necessary or important for the country to keep its eminence in higher mathematics.
